'WHERE PASSION MEETS PERFORMANCE'

CIRCLES

There are '3 Types' of teachers with '7 Circles' they run in.

They rarely cross over the circular boundaries and if they do, it is certainly no more than one boundary fence at a time.

When you are looking for knowledge you can go to the '**A-List**', '**B-List**' or '**C-List**' level teachers. They will each give you something, the question is "What?"

Don't settle for second best!

As for me, I always aim for the '**A-Listers**' so I have the best chance of actually learning something and gaining value for my time and money. One must explore the region for these rare creatures called 'A-Listers'. Ask around!

In addition to the '3 Lists', there are the '7 Circles'. Three of the circles are just the common variety '**Clique**' employed within the golf core community or outside the center. Then there are the two primary self-improvement groups, who are a different breed of cat!

The direct-mail '**Golf Mass Marketers**' and the '**Dominant High-Level Thinkers**'. There is only one way I know of to get access to 'A-Listers' in each of the #6 and #7 circles or below if you so desire. You must persevere with the search while asking many people where they have seen the guru's of late. Talk to 'A-Lister' students! You must chase them down on foot or with any vehicle you can manage! Don't give up the hunt!

When you get one in your grasp, hold on! He or she will be in demand and their time will be of the essence. If you can get a moment or two, pay very close attention!

These short sharing intervals shall likely be fleeting opportunities at best.
