## **'WHERE PASSION MEETS PERFORMANCE'**

### **DIME TO DIME DRILL**

You recall our 'Heads Or Tails Putting' that almost applies to your 'Chipping and Bump & Run Procedures', right? Well this 'C2D Drill' is close, with one added dimension!

Place 'One Thin Dime' under your 'Ball'. When you 'Stoke The Ball Off The Dime' you have to call it 'Head Or Tails'. This insures that you do NOT take your 'Captain EYES' off the 'Focus Point'. If you look away from your 'Object Ball' during the stroke, you will not produce a 'Dead Handed, Dead Rope Procedure' required to make very reliable 'Putting Strokes'.

Remember the rule? 'Your Eyes Do Not Move Until Your Hands Have Stopped Moving'. Find a place for this in your mind!

Here is the added dimension.

If you can roll your 'Ball' over a small 'Intermediate Spot', like 'One Thin Dime', you can make longer 'Putts' dead into the little white bucket on the dance floor that holds the flag.

Next, if you can roll your 'Ball' 'Dead Weight' right onto the dime or just over and past it 12 to 17 inches, my friend, 'You Can Putt'!

So not you have some more ammunition for your improvement!

If you have any questions, just call your own 'Personal Certified 555 Golf Master Teaching Professional'. You have one, right?

Enjoy the ride!
