'PERFORMANCE EXCELLENCE'

BULLET-PROOF SKILL DRILLS **Line & Dot Your Balls**

The manufacturers have been printing a tiny line on their balls for quite some time. Too small for this mature 'Country Gentleman Golf Teacher' to see clearly from any functional distance!

Go to a major golf store and purchase a 'Ball Marking Tool'. It comes with a nice 'Sharpie' or two. The cost is well under \$10.00. There, now you are in the business of making your balls using any preferred colours.

We place the 'Line' pointing directly down the 'Ball Rolling Line' ('BRL').

"What are the 'Two Dots' for?" you ask. Great questions!

We seldom if ever naturally strike a ball other than 'Inside-Out' ... circularly or on an 'Arc'. We can make a 'Square Square Square Putting Stroke' if we so desire and 'Set-Up' properly. Few use what your '555 Team' refers to as the 'Seagull Stroke Method'. "AskUs!" if you have questions. You know how to contact us!

Use your 'Sharpie' to colour one ball 'Dimple' differently than the colour choice for your 'Line'. This 'Dot' should be inside and close to the end of your 'Line'. Now, turn the ball 180 degrees and mark a second 'Dot' at this other end.

These 'Dots' are 'Eye Focus Points'. Remember, we see a precise spot on any ball and see this 'Dot Come Off The Aimed Clubface'.

'Ocular Acuity' is knowingly a huge part of every 'Eye Hand Coordination Skill'!

"Now You Know The Rest Of The Story!"

Enjoy your expanding knowledge!
