

# **555 GOLF ACADEMY**

## **'PERFORMANCE EXCELLENCE'**

### **MANAGING YOUR HOOK**

I have had the pleasure of working internationally with some of the 'World's Best Golf Teachers'. I spent a lot of time watching and listening! This was beneficial!

One very special person with whom I shared time and space was the unique and great 'World Golf Hall Of Famer' Moe 'Pipeline' Norman. He was one of the all time if not the best ever 'Ball Striker'. He is gone now but his legacy remains!

He told me a 'Golf Truth' better than two decades ago that is just as true and powerful today as it was then! Good information has longevity!

We were talking about 'The Hook and The Slice'.

Moe told me that, **"The Ball Goes Where Your Hands Go"**!

This is deservedly one of the five '555 Golf Primary Absolutes'.

This common 'Hook Malady' is about **'Clubhead and Hand PATH'** as well as **'Clubface AIM At The Moment Of Separation'**.

We went on to clarify this statement. Moe told me further that, "When a person 'Hooks The Golf Ball', they are 'Cutting Across The Butt Of The Ball With The Clubface Employing An Inside-Out Clubhead PATH' and generally with a 'Closed Clubface AIM'. Thus the swinger imparts 'Side Spin Rate' in the direction of the 'High Energy Side Of The Target Line'. This induces a 'Ball Flight Curvature Towards The High Energy Side' as well.

If any person is 'Hooking Their Golf Ball Off The Tee Box', they can reduce, if not stop doing so by 'Swinging Their Hands Directly At The Target' or even a little 'In The Direction Of The 'Hook Curve'. This prevents the 'Inside-Out PATH Error'. The 'Big Side Spin Cut Action' goes away and so too does the 'Hook'!

**"Welcome Aboard!"**  
**"Enjoy The Ride!"**
