

555 Faults & Fixes

'PERFORMANCE EXCELLENCE'

ARMED WITH THE TOOLS

Your '555 Team' approach to '**Faults & Fixes**' is both very simple and highly predictable. Those are both good things in 'Golf' and 'Life'!

You know that we strive to understand 'Scientific Realities' such as '**The Physics Of Rotation**' and '**The Geometry Of The Circle**'. This material always applies.

There are aspects and elements that are 'Consistent' to every swing universally. '**The 555 System**' includes a very comprehensive application and foundation of these.

Whenever we come up against a 'Fault', the 'Fix' relies upon our knowledge of '**The 5 SET-UPS**', '**The 5 ESSENTIAL ELEMENTS**' and '**The Five 555 CONCEPTS**' which we call the '**Problem Solvers**'. Sounds like these three groups of five might be worthwhile noting as we get into yet another 'Faults & Fixes'. Here they are!

'The 5 SET-UPS' ...

1) 'Posture', **2)** 'Grip', **3)** 'Stance', **4)** 'Ball Location' and **5)** 'Alignment'.

'The 5 ESSENTIAL ELEMENTS' ...

1) 'Clubface AIM', **2)** 'Clubhead PATH', **3)** 'Clubhead SPEED', **4)** 'Sweet Spot' and **5)** 'Angle Of Attack'.

'The FIVE 555 PROBLEM SOLVING CONCEPTS' ...

1) 'The Golfing Machine Concept', **2)** 'The Tether Ball Pole Concept', **3)** 'The Balsa Airplane Concept', **4)** 'The Human Ratchet Set Concept' and **5)** 'The Dead Rope Concept'.

Equipped with these '**Three Groups Of Five**', we can tackle any '**Mechanical Golf Issue**' that arises in a logical and realistic manner. '**Faults & Fixes**' will become second nature.

"Welcome Aboard!"

"Enjoy The Ride!"

MISSING SHORT PUTTS

The more you try to physically ‘**Hole Out Short Putts**’, it is very possible that you will actually miss more. ‘Tension’ mounts and you physically try to steer the ball into the hole. To do this you actually look where the hole is halfway through the stroke. As a result, the ‘Hands Then Manipulate The Putter’ to send the ball in that direction. However, because of the manipulation, you have actually changed the line and pace of the stroke to your disadvantage. Once you ‘SET-UP’ meticulously, ‘Just Let IT Happen’!

Use the ‘**555 Heads or Tails**’ discipline to help you stop ‘Optically Tracking The Ball From The Clubface To The Hole’. ‘**Listen Fort IT To Drop!** You will hear that rattle!

DISADVANTAGES:

As eyes look up body moves and so ‘PATH Errors’ and deceleration occurs.
Ocular Bail-Out is a killer

CHECK:

Notice how quickly you can see the hole as you ‘Putt’ and ‘DON’T’!
Get a friend to study your head movements during your stroke.
Also carefully observe the ‘Configuration Of Your ‘Hand, Wrist Forearm Triangles’ in the entire back and front swings. Great ‘Putters’ have very ‘Quiet Hands’ and ‘Supreme Confidence’!
See If you get ‘Mentally Quiet and Confident’ when the heat is on?
The only way you can do this is to have a great ‘Pre-Shot Routine’ (‘PSR’).
Build one quickly and don’t skip any steps or you will ‘Lower Your Chemistry’.

**“Welcome Aboard!”
“Enjoy The Ride!”**
