'PERFORMANCE EXCELLENCE'

PUTTING Most Trusted Procedure

You are well advised to start your golfing journey by mastering 'Putting & Chipping'. That is where you make, save or lose most of your strokes and confidence. Getting proficient with these 'Short Strokes' is relatively straight forward, if you have a method and plan. The '555 System' is a marvelous, rewarding route to follow. Come on and get on board!

When we talk with our clients, their "Most Trusted Grip & Stroke Procedure" is their 'Putting Set-Up and Execution' by a considerable margin. It is only 'Distance, Direction & Green Reading'. ('Weight, Borrow & Evaluation') Knowing what the 'Dance Floor' is doing is an art form that must be practised regularly with a defined system. You cannot pretend to do this! If you lie to yourself by pretending to do what is necessary, Karma shall soon get you!

Remember, 'A Chip Is A Putt With A Hop'. Now that is a '555 Golf' truth that can be applied with great results. Your 'Golf Short Game' benefits greatly from a 'Process Mentality With A Plan'. Your 'Pre Shot Routine' enables 'Setting Up For Success' and being happy.

If this is the truth in your opinion, you should perhaps use your 'Putting Grip' when 'Chipping' and even for small 'Bump & Run Procedures'. Try it, you may like it!

Don't miss any opportunity to get even a small advantage 'Out There'.

It is your parade!
