'PERFORMANCE EXCELLENCE'

NEVER

Never generally adjust your 'Alignment' ('The 5 Axes ... Feet, Knees, Hips, Shoulders and Ears') from 'Body Line Parallel to the Target Line', what your '555 Team' refer to as 'Open or Closed', unless you desire to create 'Curvature' in your "Ball Flight".

The 'Alignment Adjustment' will alter your 'Clubhead Path & Plane'.

That will create a 'Cut Shot' ('Fade, Slice') or 'Turned Over Shot' ('Draw, Hook').

That is right! You can and should create 'Shape By Set-Up' and not by 'Manipulation'.

In this manner, to achieve curvature, you DO NOT have to change your swing!

Pretty amazing, right?

Remember, the absolute best shot in golf to own is the 'Straight Shot'.

Master this and then you can get creative!

Have FUN!
