

‘NUTRITIONAL TIPS’

URGENT JOINT SUPPORT

This is a pretty amazing discovery out of **‘Mother Nature’s Own Pharmacy’!** ‘UJS’ is a natural cure for ‘General Joint Pain’ that has been thoroughly field tested over many years.

Here’s **Harry W. Diehl’s** amazing story:

It all starts back in 1962 when a researcher named Harry W. Diehl was working at the National Institutes of Health in Bethesda, Maryland. Here he discovered that **“Certain Animals Are Completely ‘IMMUNE’ To Arthritis”**, even if they are exposed to a toxin that directly causes arthritis!

To make a long story short, after years of research, Diehl isolated the substance that gives the animals their immunity to arthritis. He then synthesized a man-made version of this substance that was equally effective. He named it **‘Cetyl Myristoleate’** (CM for short).

Then in 1977 Diehl approached several pharmaceutical companies about funding more research and distributing CM to those in need. But, unfortunately, none were interested because ...

**CM Occurs Naturally, Which Means it Can't Be Patented.
No Product Patent Means No Huge Profits For The Drug
Companies, So CM Remained Hidden For Years!**

Frustrated, Diehl continued to fund his research and, because CM was found to be extremely safe, he began using it himself when he developed osteoarthritis in his hands, knees, and feet. Amazingly, after using CM for only a 30-day period, he remains pain free to this day!

And he isn't the only one with startling pain-free results!

Diehl says that some of his early volunteers are still 100% free from pain and arthritic symptoms after taking CM for just 10 days or less! Others have had some relapses, and needed refresher doses to improve again, but the point is ...

**Unlike Other Joint Products, "Urgent Joint Support" May
Produce Amazing Pain-Free Results in 30-Days or Less...
And These Results Can Last For Life!**

Want proof? In March 1994, Diehl published his groundbreaking research in *The Journal of Pharmaceutical Sciences* .

Also, in 1996, a multi-center clinical research study was conducted. It involved 431 patients that suffered from joint swelling and joint pain. **The remarkable results showed significant improvement of 87% in the group using a CM based product... in just 30 days!**¹ This study indicates that CM really is a solution for the majority of those suffering from arthritis symptoms and body pain!

To put these results in perspective, two commonly prescribed medications for arthritis (methotrexate and cyclosporin) were only 20% effective in relieving arthritic symptoms when combined together.² That means the safe and all-natural 'CM' may be over 67% more effective than popular prescription drugs ... without the worry of dangerous side effects!

BUT THERE'S MORE:

At the renowned San Diego Clinic another major clinical study was conducted. In this study, 48 patients suffering from joint and back pain were given CM. The study discovered that 46 patients received remarkable improvement -- that's a 95% success rate!

Many doctors have known about CM for a few years and have been using it themselves and recommending it to their friends and family with incredible results. In fact, Dr. Douglas Hunt, states in his book, *Boom, You're Well*, that **CM is the nutritional discovery of the 20th century!** Unfortunately it always takes awhile for cutting-edge information like this to trickle down to the rest of us. But that doesn't matter now, what matters to you is ...

Urgent Joint Support Works Almost Instantly... Like WD-40™ for Your Joints!

Urgent Joint Support acts to lubricate the joints in your knees, elbows, wrists, hands, back, neck, shoulders, and hips so they glide smoothly and painlessly during activity. This means it works directly on eliminating the cause of your pain... for good... instead of temporarily masking it like most medications do.

Plus, it also works through a series of complicated biochemical pathways to constantly control and reduce inflammation. This eliminates pain and joint stiffness. **And it may keep working for months... even years or decades... after you quit using it!**

Most importantly, the active ingredients in Urgent Joint Support have been shown in scientific studies to be free from side effects. UJS is a safe and natural product.

**This May be The ONLY Pain Relief Product
You Will Ever Need Again!**

The purest form of CM you can find anywhere is in **Urgent Joint Support (UJS)**. Each UJS serving contains a precise dose of 1,100 mg of a pure Cetyl Myristoleate Blend, which is the exact amount recommended by doctors and in the studies. You simply take 2 capsules twice a day with meals. One large bottle contains 120 capsules, which is a 30-day supply.

WARNING

**Avoid Cheap Imitation Products that Don't
Contain Real CM, or Don't Contain a Full
30-Day Supply at the Correct Dosage!**

It's sad but true. Many companies sell a CM based product that doesn't contain real CM, or there are such small traces of the active ingredient that it does no good. Products like these are a waste of money and have no positive effects on reducing or eliminating your pain.

What's more, other companies sell a bottle of CM but the bottle only contains 30, 60, or 90 small capsules. Urgent Joint Support contains 120 capsules, which is a complete 30-day supply.

DO NOT OVERDUE IT AT FIRST!

The CM found in Urgent Joint Support is designed to zap pain in speeds of record time. This is why you should be careful. After just a few weeks on the product many users feel so good, so fast, they tend to physically overdo it. This can lead to muscle soreness and strain. This is why doctors recommend you ease into your new activities slowly at first. And, of course, always consult a physician before starting any new supplement or exercise program.

**WHAT A SMALL PRICE FOR YOUR
NEW PHYSICAL FREEDOM!**

How much would you pay to be absolutely, positively free from pain and have new physical freedom? If you're like most... the sky is the limit. But here's some fantastic news! Because this state-of-the-art pain-relief product is **very** expensive to manufacture,

and because it contains **only** the purest form of **Cetyl Myristoleate (CM)**, you can realize why it is not inferior and cheap like a lot of competitive products.
