

# One Minute GOLF TIPS

**'WHERE PASSION MEETS PERFORMANCE'**

## THE ALLIANCE

The object of this 'One Minute Golf Tip' is to 'Improve Your Game' quickly and easily.

Design a sound 'GRIP'. The 'Hands **CONTROL** the Golf Club. The 'Arms **SUPPORT** the Hands'. The 'Body **TRANSPORTS** the Arms'.

**The 'Back Of The Target Hand Controls The Clubface AIM'.**

The 'Brace Hand Takes The **LAG** out and Monitors **LEAD** and **VELOCITY**'. If the 'Clubhead' is getting early or late, those 'Navigator Hands' are supposed to advise the bridge and stabilize the situation.

**'THE BALL GOES WHERE THE HANDS GO'.**

The 'Hands' are the only connection between us and the 'Tools'. If you were to ask me for a very quick definition, I would tell you that they just act like 'Clamps' that hold on gently until more power and control are required.

The 'Hands' take their instructions primarily from the '**Captain EYES**' and, once they learn their jobs, which are different for the 'Target' and the 'Brace', then 'FEEL' becomes a tremendous factor. **The 'Hands' are the 'Navigators'**. An important role!

We golfers sometimes get obsessed with particular 'Position, Moves and Motions'. Avoid this. '**Position Golf Smothers Alignment Golf**'. Set it up properly and then just '**Let IT Happen**'! Occasionally I suspect we cannot see the forest for the trees. You know, 'Paralysis By Analysis'. If you want to be scientific, leave that behind when you go into battle. Focus on 'Course Management' and good 'SET-UP'. That will do it!

Play well!

**"Welcome Aboard!"**

**"Enjoy The Ride!"**

**SATISFACTION GUARANTEED**
