'PERFORMANCE EXCELLENCE'

PUTTING PRE-SHOT ROUTINE

When you have a plan and, better still, a 'Proven Routine', you can make quality predictable things happen over and over. If they are good things, "How Good Is That?"

Making 'Great Putts' is no exception to this rule!

So here is a 'Bullet-Proof Pre-Shot Putting Routine' just for you. Even though I feel this is a 'Proven Professional Performance' sequence, remember you can have your own personal version as long as it works repeatedly and reliably under pressure. As strange as it may sound coming from this perfectionist 'Golf Teacher', you can 'Prepare and Putt' any way your little heart so desires, as long as it works almost every time under pressure! 60% of the time is tolerable but 80% is a whole lot better! They are your numbers!
