'WHERE PASSION MEETS PERFORMANCE'

PUTTING DRILLS

RAW WARM UP

We have got to get started somehow!

Find an area of the 'Green' that is as flat as possible.

The first thing I do is **'Putt To Nowhere'**. Just roll the ball to 'Feel The Motion' and learn a little about the 'Characteristics Of The Green' ('Stimp'). Get familiar with the 'Natural Elements'. Then do 'The Down & Back Drill. Now you can focus on 'Inching' or making 'Putts' to specific 'Brace Foot Positions' for 'Length Control'.

The make variable distance putts **'To The Fringe'**. Make each ball roll just to the fringe and about one or two feet farther each. Be very focused and specific. (see 'The 5% Rule')

Make some **'Specific Distance Long Putts'**. ('30 to 40 feet')

Make some **'Specific Distance Medium Putts'**. ('20 to 30 feet')

Make some **'Specific Distanced Short Putts'**. ('10 to 20 feet')

Now you can go back to a few 'Long and Medium Putts' that have **'Break and Slope'**. Be sure to apply your precise 'Pre-Shot Routine' ('PSR'), which includes 'Pacing The Putt' and all '7 Steps'. If you do not know them, **"JUST ASK US!"**

Always finish with **'Putts Inside 10 feet'** right down to the '2 Foot Knee Knockers'!

Don't leave this 'Drill' until you have done it completely. Learn to like the 'Process'!

This discipline will make you a 'King Of The Short Stick'!
