'PERFORMANCE EXCELLENCE'

SO, WHAT ABOUT IT?

Betting With The Odds On Your Side

Let's look at the facts!

'Putting' is about 40% of the game.

'Chipping' is about 10% of the game.

Your 'Approach Shots' to the dance floor are another 20%.

The remainder are 'Long Shafted' strikes ... 'Long Irons, Hybrids, Fairway Metals' 10% - 15% .
Your 'Driver' is about 10% - 15% of the game. Granted, we have to get out there and 'In Play'.
No argument! The 'Drive' is absolutely a key stick! It sets up the hole! But ...

Here are the odds and Vegas betting numbers!

If you improve your 'Driver Performance' by 10%, you will shave 1.5 strokes per 100.

If you improve your 'Short Game Performance' by 10%, you will shave, **'No, Chop 7 strokes per 100!'**

Thus the real average American week end golfer will save about 7 strokes in a week or two if he or she 'Works Smart' at the 'Short Game'. That is what your '555 Team' provides. What's the hold up? We are here to help! Go to our 'Home Page' and become a 'Locker Room Member' right now! At \$1.52 per week, you can afford it! You will be part of the 'Inner Circle' and actually have your very own 'Certified Master Teaching Professional' ('CMTP') on retainer. One call about a problem and you will have recovered your 'Locker Room' investment! That's right ... **'Live Support!'**

"So, What About It?" Improving is not only 'FUN', but also really rewarding!

Your parade!

"Welcome Aboard!"

"Enjoy The Ride!"
