'PERFORMANCE EXCELLENCE'

TEACHING THE BLIND TO GOLF

an amazing privilege and experience
that helps us teach those who see

Archie Edwards was my room-mate at college. He was completely blind! He had talents, however, that no seeing man could lay claim to! Amazing heightened compensatory skills! I swear he had thermography and radar on board ... bat like capabilities!

Let me start off by telling you that, no man could hide from Archie in a game of 'Hide & Seek'. I remember one night when an aggressive 'Thunderstorm' beat on us pretty hard ... thunder, lightning, heavy rain and hail. The power went out. My room-mate kept me on track all over the place, all the while we were without light. It was as black as the inside of a cow! Fun experience! We went to the mess and cooked a meal ... little messy but we ate nonetheless!

So how did I teach Master Edwards the finer points of 'Ball Striking & Golf'? Actually pretty simple and basic once we both understood his on board skills!

Taught him 'The 5 Set-Ups' and about 'The 5 Essential Elements'. With these tools he was armed to 'Hit The Ball'. All I did was teach him to 'Brush The Grass' with some speed, 'Back & Forth' ... 'Tick Tocks'.

Once we achieved this plateau, all I had to do was set him up 'Measured To The Ball' and tell him when I was out of the way! He had to 'Sweep The Grass' with 'Extended Levers Assemblies' ... say the little "&" word and apply 'Leg Drive with matching 'Down Force' through 'BOSA'. I teed him up generally when we started this 'Journey'.

I painted his 'Mental Image', pretty well I might add, providing relevant data such 'Distance and Club Selection' and 'Club Selection'. We established his 'Target Feel' to be in his 'Target Ear' with his 'Target Shoulder' matching. I had to 'Set-Up' his Railways Tracks' ('Alignment'). We had worked on perfecting 'Swinging Down The Body Line' ... a major neutral and reliable skill.

He could 'Paint Golf Pictures' "OUT THERE"! Very special times they were!

"Welcome Aboard!"

"Enjoy The Ride!"
