## TIPS & TRICKS

This 'Country Gentleman Golf Teacher' does not believe that there are many 'Tricks' in golf, unless you consider bouncing the golf ball 1000 times on the upward-pointing face of a wedge, between and around your legs as a useful 'Trick'. There is very little circus in golf! There is a lot of science, physics and mechanics that must be mastered, sooner better than later!

As to 'Tips', there are a lot of these around. The key thing is to choose them wisely and then to understand them! That is the only way to apply them effectively.

If a 'Tip' does not make an abundantly clear, practical point, don't waste your time on it.

Any tip must be easily adopted into you own strategy.

'Video Tips' tend to be more easily absorbed than do "Written Tips". The practicality is, however, that you can print a written tip and compile them into a dedicated and useful 'Tip Binder'.

I hear you! "Do More Video Tips At 555 Golf".
