'PERFORMANCE EXCELLENCE'

EXACT DISTANCES

Calibrate Your Bag

Don't you want to be able to strike balls predictable distances?

Don't you need to hit balls predictable distances in order to play well? Of course you do! How can you score efficiently if you cannot hit your '5/10/15 Foot Circles'? Well you cannot! Most golfers cannot accomplish under '30 Putts Per Round' because they cannot find the 15 Foot Circle'. This really compromises their ability to 'Score Small' with the 'Flat Stick'. Not all that complicated, right?

One cannot hit the numbers until 'Swing Stability Is For Real'. You cannot 'Calibrate Your Bag' until you can make a repeating swing! Bogies and Doubles' are a regular diet until 'Control Goals' are accomplished. This is not a 'Disney Fantasyland'!

Keep working with proven '555 Golf Methods' of achieving 'Mechanics' and then 'Feel'! The reverse is a dead end street! 'Feel' will not produce sound, reliable 'Mechanics'.

Once you can make solid 'Abbreviated Full Swings', you can then enlist and activate our '**5 Ways To Shorten Your Distance**' regimen. It is a 'Bullet-Proof' approach to 'Distance Control' that will help you have more confident, comfortable and consistent 'FUN'.

Go to your '555 Article Library' and read up on this terrifically simple methodology! It is also in the 'Video Vault' for your convenience and enjoyment.

Don't put it off! Tomorrow and tomorrow and tomorrow never comes!

It's your parade!

Have FUN!
