'PERFORMANCE EXCELLENCE'

WHEN IS IT PERFECT TO PLAY? WINTER

I had to laugh at an article just published by a major golf teaching operation! They were telling their subscribers about "Not Quitting For Winter Quite Yet!"

Your '555 Team' fully grasps what winter means to traffic in the golf industry. We spent over 35 hard working and very successful years north of the 49th in British Columbia! There is about a 100 mile stretch in all of Canada's expanse where you have any hope of winter golf with no snow! It is from Victoria on Vancouver Island across the straits of Georgia and Juan de Fuca to Vancouver and out into the Fraser Valley as far as Abbotsford. Not as far as Chilliwack! That is it! Full on winter happens by the time you reach Hope! Then it is off to Princeton and Lytton.

If you cannot tolerate rain, moist grass and a little sleet or snow flurries you really need to move!

As far as the 'Great State of Texas' is concerned, not unlike our southern neighbours, New Mexico, Arizona, California and Nevada, 'Winter Heaven Golf' is just around the corner! There is slightly less playing pressure in winter, so practise more and improve! Do you know that just a small amount of right makes 'Things Golf' a lot better?

"Time to hang up your clubs?"

Heck no! Triple digit temperatures and winds are waning. It is time to get your sticks really cleaned up and sharply active! Design a smart '555 Team Assisted' game plan and stick to it!

Your '555 Team' is here to assist in any way you might need to have more FUN! We know the 'Golf Wilderness' from top to bottom and love to help good experiences happen! Get in contact with us right away. If you are not 'Subscribed To Our FREE Club House Membership', a terrific resource, "DO IT NOW!" Multiple methods are right below! www.555golf.com will make this connection happen in moments! You will be glad you did!

Enjoy!
