'PERFORMANCE EXCELLENCE'

YOUR 8 STEP PUTTING 'PSR'

SIMPLE SEQUENCE SUMMARY

I have had seven requests over the past few days for a quick, 'Down & Dirty Putting 'PSR' Summary', so here it is!

Remember to repair your '**Ball Mark - Plus One**' and then to clean and roughly align your 'Ball Line' to the 'Ball Rolling Line' ... may be 'Offset' to adjust for 'Break'. (see 'Marking Your Balls' – always apply a long line)

- [1] '**Read Your Break** Down The Line' ('DTL' - 'Ball To Cup' - 5 paces back ...
Select your key 'Intermediate Target' 10 to 15 inches in front of the ball)
- 2) Stand in the 'Isosceles Triangle' and '**Read The Slope** 'Across The Line' ('ATL')
Do so in segments ... '1/3, 1/3, 1/3' ... 'Ball To Cup'. (last 1/3rd breaks most)
- 3) '**Examine The Actual Putting Hole**' and cup for damage and imperfections
- 4) '**Read Your 'Break UTL**' with particular attention to the last 1/3rd
This is where the 'Slow Down Breaking Action Happens'
- 5) '**Pace You Putt**'. This process is 'Empirically Necessary' and 'FREE'.
('Distance' is a bigger challenge than 'Direction')
- [6] '**Take A Final Look DTL**' ... make minute adjustment to 'Ball Line'
and 'Intermediate Target' ... Match 'Putter Head Line' with 'Ball Line'
- [7] '**Final Set-Up and Impact Fix**' ... confirm your 'Intermediate Target'
... confirm your 'Inching Rule' or 'Optimal Stroke Length'
- [8] '**Trigger Your Take-Away**' ... Low & Slow' ... 'Breathing Out'
... 'Heads Or Tails' ... let the ball 'Release and Roll'

[1/6/7/8] These items are for your 'Driving Full Swing PSR' ('I Drive As I Putt')

This 'Proven Putting & Chipping PRS' will NEVER let you down!
Any 'PSR' is better than none!

Enjoy!

"Welcome Aboard!"

"Enjoy The Ride!"
